SEND Policy

1. Compliance:

This policy complies with the statutory requirement laid out in the SEND Code of Practice 0-25 (July 2014) 3.66 and has been written with reference to the following guidance and documents:

- Equality Act 2010: Advice for Schools DfE (February 2013)
- SEND Code of Practice 0-25 (July 2014)
- School SEND Information Report Regulations (2014)
- Statutory Guidance on Supporting Pupils at School with Medical Conditions (April 2014)

The SENDCo at St Bartholomew's is a Qualified Teacher and holds the National Award for SEN Coordination.

2. Aims:

At St. Bartholomew's we are committed to using our best endeavours to provide high quality and appropriate education for all children which enables them to:

- Achieve their potential
- Have access to a broad and balanced curriculum
- Meets the needs of any identified Special Educational Needs
- Become confident individuals living fulfilling life
- Make a successful transition to the next stage of their education

In order to achieve this, the school will:

- Create a learning environment that meets the needs of every pupil in the school
- Ensure that the Special Educational Needs of children are identified, assessed and provided for and that high aspirations and expectations are maintained
- Enable all children to have full access to all elements of school

Policy to be reviewed every 3 years

Reviewed by Sara Taylor, SENDCO, SLT & L Gray Governor Autumn 2021

Next review date: Autumn 2024

- Ensure that parents are able to play their part in supporting their child's education and that they are kept informed and work collaboratively in a positive manner
- Ensure that children with Special Educational Needs are consulted in this process.

3. Objectives:

To achieve this aim, we will:

- Strive to establish a fully inclusive school, eliminate prejudice and discrimination and create an environment where all children can be happy, flourish and feel safe.
- We will respond to our learners in a variety of ways, taking account of their needs and life experiences. We will use our best endeavours to meet individual children's SEND requirements.
- We are committed to identifying a pupil's Special Educational Need at the earliest point and then making effective provision in order to close gaps in their learning and help them to achieve their potential.
- We are committed to parents participating as fully as possible in decisions about their child and being provided with the information and support necessary to enable this. The voice of parents is valued and actively encouraged.
- We will support pupils to participate in discussions, express their views and be fully involved in decisions which will affect them. We will encourage them to become increasingly effective self-advocates.
- Work in close partnership with a range of specialist agencies to enable us to provide effective targeted support for children (For example: Educational Psychologists, Autism Outreach, Speech and Language Therapists, Occupational Therapists, Physiotherapists, Vision and Hearing Support Teaching Service etc.).
- Provide support, advice and training for all staff working with pupils with different needs. Staff must have up to date knowledge and skills to use the most effective teaching strategies to respond to the strengths and needs of all pupils.
- Ensure a qualified Special Educational Needs Coordinator is in role managing the day to day operation of the SEND Policy and coordination of specific provision made to support individual pupils with SEND, including those who have EHCPs.

Identification of Special Educational Needs and Disabilities:

Legal Definition:

"A child or young person has Special Educational Needs if they have a learning difficulty or disability which calls for special education provision to be made for him or her. A child of compulsory school age or a young person has a learning difficulty or disability if he or she:

Policy to be reviewed every 3 years

Reviewed by Sara Taylor, SENDCO, SLT & L Gray Governor Autumn 2021

Next review date: Autumn 2024

- Has a significantly greater difficulty in learning than the majority of others the same age or,
- Has a disability which prevents or hinders him or her of making use of educational facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post 16 institutions.

For children aged 2 or more, Special Educational Needs provision is educational or training provision that is additional to or different from that made generally for other children or young people of the same age.”

For some children, SEND can be identified at an early age. However, for other children and young people, difficulties become evident as they grow and develop.

The identification of SEND is built into the overall approach to monitoring the progress and development of all pupils at St Bartholomew’s Primary School. Class teachers assess each pupil’s current skills and levels of attainment on entry, building on information from previous settings or classes. Class teachers then regularly assess progress for all pupils, identifying where pupils are making less than expected progress given their age and individual circumstances.

Factors to be taken into consideration where progress is of concern could include any of the following:

- Progress that is significantly slower in comparison to the child’s peers when starting from the same baseline
- Improvements which fail to match or better the child’s previous rate of progress
- Where there remains an attainment gap between the child and their peers
- Where the attainment gap widens between the child and their peers

Progress is not solely related to academic attainment. A child’s social and emotional development is paramount to a child achieving their potential.

Broad areas of need as outlined in the SEND Code of Practice (2014)

The SEND Code of Practice outlines 4 broad areas of need:

1. Communication and Interaction

- May have speech sound difficulties
- May find it difficult to communicate with others
- May have difficulty understanding others
- May have an autism spectrum disorder (ASD)

2. Cognition and Learning

- May learn at a slower pace than others of the same age
- May have a specific learning difficulty (SpLD), such as dyslexia, dyspraxia, dyscalculia

Policy to be reviewed every 3 years

Reviewed by Sara Taylor, SENDCO, SLT & L Gray Governor Autumn 2021

Next review date: Autumn 2024

3. Social, emotional and mental health difficulties

- May show emotional difficulties such as withdrawn or challenging behaviour
- May have disorders, such as, attention deficit disorder (ADD), attention deficit hyperactive disorder (ADHD) or attachment disorder

4. Sensory and/or physical needs

- Visual impairment (VI)
- Hearing impairment (HI)
- Multi-sensory impairment (MSI)
- Physical disability (PD)

Individual children may have needs that cut across one or more of these areas and their needs may change over time.

The purpose of identification is to work out which area is the primary area of need and whether there are any secondary areas of need, and then work out what action the school needs to take in order to fully support the individual.

Other factors that may impact on progress and attainment, and are not considered to be SEND include:

- Disability
- Attendance and Punctuality
- Health and welfare
- Being in receipt of a Pupil Premium Grant
- Being a Looked After Child (LAC)
- Being a child of a service person
- English as an additional language

Any concerns relating to a child's behaviour may be an underlying response to a need which the school would work with parents collaboratively to identify. We recognise that all behaviour is a means of communication.

The Graduated Approach to SEND Support

Identification and Assessment of SEND:

At St Bartholomew's Primary School we are constantly striving to meet pupils' needs. Through termly progress meetings between teachers and the Senior Leadership Team, pupils who are not making the expected progress are identified and additional support to try to improve learning will be put in place. Through quality first teaching and appropriate differentiation, class teachers will adapt the learning to support the child. The class teacher will communicate with the child's parents to ensure there is a shared understanding of the child's needs.

Next review date: Autumn 2024

Where a pupil's progress continues to be less than expected, the class teacher will meet with the SENDCo to discuss the child's needs. There will be a review of interventions so far and a Green Initial Concerns Form completed by the Class Teacher, with consultation with the parents and the pupil if possible. When the SENDCo has received the form, the requirement for additional assessments will be ascertained. A decision will be made as to whether a child requires "additional or different from" provision in order for their needs to be met and progress made. Parents are then invited to attend a meeting to discuss the need for special educational provision and share their thoughts and views about their child. The child's views (if appropriate) will also be sought. With permission from the parents, the child will be placed on the SEND Register at SEND Support level with the area of difficulty noted and the information put into SIMs. A child would NEVER be placed on the register without permission from parents being gained.

Planning and Implementing SEND Support:

If "additional or different from" provision is required to meet the child's needs and enable progress to be made, the child will be placed on the school SEND register at "SEND Support" level in accordance with the SEND Code of Practice.

The class teacher remains responsible and accountable at all times for the progress and development of all children in their class. Quality First Teaching (QFT) is always seen as the first step in responding to pupils; who may have SEND. QFT is high quality, inclusive teaching for all pupils in a class. QFT includes differentiated and personalised learning to support SEND pupils in class and ensures all children and young people can progress in their education and wider development. The class teacher, SENDCo, parents and child (where appropriate) will identify targeted support to meet the key outcomes we are seeking for the child. This will be recorded on a Small Steps Target Sheet which is held centrally and electronically. The support will be delivered by staff with appropriate skills and knowledge.

The organisational process of refining SEND support will take the form of a four-part cycle:

Assess

Plan

Do

Review

Through this cycle, earlier decisions and actions are revisited, refined and revised as a growing understanding of the pupil's needs and support needs emerges. The result of this should lead to good progress and outcomes for the child. This is known as the "Graduated Approach". The effectiveness of the targeted support will be formally reviewed through the Small Steps each term, and the outcomes shared with parents, following the current cycle:

The school will consider involving specialists if further information or advice is needed in order to support an individual, within the constraints and thresholds the specialists and resources available to the school allow.

Supporting Parents/ Carers of children with SEND

St. Bartholomew's Primary School is fully committed to a meaningful relationship with parents of children with Special Educational Needs. As a school, we will endeavour to ensure parents are as fully involved as possible about decisions about their child. We will provide them with the information and support necessary for their thoughts and views to be taken into account and valued.

The school will do this in the following ways:

Always making parents feel welcome and actively listening to their aspirations, wishes and concerns for their child. We aim to instil confidence and build meaningful partnerships.

The SENDCo aims to operate an "Open door" policy and is available for meetings by appointment.

Signposting parents to wider support, information and services pertinent to their child's SEND needs by ensuring they know how to access Leicestershire's Local Offer and the LA's Parent Partnership Service.

The school will endeavour to support and guide parents with their child's learning and development at home.

Class teachers will endeavour to develop positive relationships with parents and communicate any concerns regarding pupil's progress at the earliest opportunity.

A child's Small Step Targets will be shared with parents termly, with the previous targets being reviewed and new targets set which identify how to support the child and their learning. The parents can then support their child at home.

Supporting pupil voice:

The school recognises that all pupils have the right to be involved in making decisions about their education and learning and exercising choice. We aim to develop pupils' self-advocacy skills to support them successfully as they transfer to each new phase of their education. We will endeavour to help pupils communicate their own interests, aspirations, needs and rights. This will aid them to make informed decisions about their learning and future choices.

Policy to be reviewed every 3 years

Reviewed by Sara Taylor, SENDCO, SLT & L Gray Governor Autumn 2021

Next review date: Autumn 2024

The school will do this in the following ways:

Self-knowledge: Working with parents and the young person, we will support pupils to understand their strengths, needs and approaches to learning which are particularly successful for them. We will encourage them to have the confidence to voice their hopes, aspirations and concerns.

Wherever possible, and in an age appropriate manner, pupils with SEND will be encouraged to make decisions about future support and provision they feel they need to enhance their learning.

All staff will actively listen to and address any concerns raised by the children themselves.

The school will plan in additional support for SEND pupils at key times. For example, when making a referral for an EHCP, or transition to new classes or key stages.

Training:

In order to maintain and develop the quality of teaching and provision to respond to the strengths and needs of all pupils, all staff are encouraged to undertake training and development. Training needs of staff are identified through the school's self-evaluation process and are linked to the needs of the pupils and provision to support them.

All staff are encouraged to speak to the SENDCo if they have any worries or concerns about a child.

As part of our transition process, teachers meet together in departments to share information about children and discuss the needs of individual pupils. The SENDCo will endeavour to ensure that all staff understand different pupil needs and advise on potential strategies to help the child realise their potential.

The school's SENDCo and SEND Governor regularly attend SENDCo Network meetings.

The school regularly monitors and evaluates the effectiveness of provision for all pupils including those with SEND. The system involves analysing data related to the achievement of pupils, observing the teaching and learning across the school and pupil progress meetings with teaching staff. The school will endeavour to gather pupil's views through talking to pupils about SEND and how they feel it could be improved.

EHCP: Where the special educational provision required to meet a pupil's needs cannot reasonably be provided from within the budget normally available to the school, the school, in consultation with parents, will consider requesting a SEND Intervention Funding or Education, Health and Care Plan from the Local Authority.

To inform this decision, the SENDCo will have close regard for the Local Authority's criteria for additional funding. This information can be found on the Leicestershire County Council Local Offer website, along with information on the EHCP integrated assessment process.

This will be shared in full with parents to ensure they are confident and clear about the process and how they are involved in it.

Supporting Pupils at school with Medical Conditions:

At St Bartholomew's Primary School, we recognise that any pupils with a medical condition should be supported so that they have full access to all curriculum areas, including school trips and physical education. Some children with medical conditions may be disabled and where this is the case, the school will comply with its duties under the Equality Act 2010.

Some children may also have Special Educational Needs (SEND) and may have an Education, Health and Care Plan. An EHCP brings together the Health, Social Care and Educational needs of the child. The SEND Code of Practice (2014) would be followed to make reasonable adjustments. Arrangements are in place at school to support pupils with specific medical conditions.

Funding for SEND and Allocation of resources:

The school's element 1 and element 2 budget is used to make general provision for all pupils in the school, including pupils with SEND. This is known as the notional budget. The government has recommended that school should use this notional budget to pay for up to £6,000 worth of special educational provision to meet a child's SEND. Most children with SEND need special educational provision that amounts to less than £6,000. If the school can show that a pupil with SEND requires more than £6,000 worth of special educational provision and meets the Local Authority criteria for SEND Intervention Funding or an EHCP, the school can apply for additional funding to meet the additional cost of provision. Where the Local Authority agrees, the additional funding is granted and the school is expected to use this funding to make provision to meet the individual pupil's assessed needs.

Removing pupils from the SEND Register

In consultation with parents, class teachers and the SENDCo, a child will be considered for removal from the SEND Register where he/she has made sustained good progress which leads to:

The attainment gap between the child and his/her peers of the same age being sufficiently closed.

The child's wider development and/or social needs have improved and progress in the targeted area is considered to be sustained.

SEND Support (support that is "additional to or different from") is no longer required to ensure that progress is sustained.

Storing and managing information:

All records containing sensitive information relating to the Special Educational Needs or Disabilities of pupils in school will be treated as highly confidential and be securely placed in

a locked cabinet when not in use. Storage and destruction of material will comply with the school's retention policy under GDPR.

Data will be processed to be in line with the requirements and protections set out in the UK General Data Protection Regulation.

Dealing with Complaints:

St. Bartholomew's Primary School is committed to working in close partnership with all members of the school community. We place great value on the role of parents/ carers in supporting their child's learning. All staff and governors actively encourage a positive relationship between school and families.

It is recognised that from time to time, parents of children with SEND requirements may have a particular concern regarding their child's individual needs. The school acknowledges there is a difference between a concern and a complaint. However, the requirement to have a complaints policy does not undermine efforts to resolve the concern informally. Concerns will be dealt with by the school as quickly, sympathetically and effectively as possible.

The School's Complaints Policy outlines the formal procedures which will be involved when initial attempts to resolve the issue are unsuccessful and the person raising the complaint remains dissatisfied and wishes to take the matter further.

Bullying:

We are an inclusive school and work every day to create a safe, secure and happy environment for ALL children, where everyone is accepted for who they are and where differences between us are valued and celebrated.

In our school, bullying is not tolerated. We are aware, however, that some children with SEND may be particularly vulnerable to bullying. In order to mitigate this, we are especially vigilant and plan in opportunities to promote greater understanding of issues related to SEND.

As part of planning the support and provision for pupils with SEND, we will always look to promote pupil's independence and resilience and closely monitor pupil's well-being outside as well as within the classroom.
