Dear Parents and Carers,

I am writing to inform you of an important development regarding delivering the teaching of Mathematics for our Year 6 pupils.

This year, we would like to implement a change of approach and we are mindful that this may involve your child being taught by a different Year 6 teacher for their Maths lessons. By utilising teachers and classes differently, we aim to maximise the learning potential of every student while also allowing them to progress at a pace (and with challenge) that suits their abilities.

This adjustment has been carefully considered in order to ensure that all children continue to receive high-quality teaching and the same diet of learning, but tailored more to their individual learning needs. We successfully trialled the management of this approach last year and we are pleased to report that it was met with great success.

All classes will continue to cover the same curriculum – which is meticulously planned by year 6 staff to ensure consistency in learning objectives and outcomes across all groups.

We kindly ask for your continued support and collaboration, though please feel free to reach out if you have any questions or concerns regarding this change.

Thank you for your understanding and support – kindest regards,

The Year 6 Teaching Team
